

# Eliminating Leads: Migrating CRM to Support Account Based Marketing

Larry Stein

November 7, 2017

# Agenda

- ABM Overview
- Systems / Data Foundation for ABM
- Case Study: FloQast

# The Marketing Disconnect

*Reps Sell to Accounts, Not Leads*

CFO

Accounting  
Manager

Company

Controller

Auditor

# Half of Marketing is Wasted

*Which Half?*

Wrong Geo

Wrong Persona

Wrong Level

Wrong Account

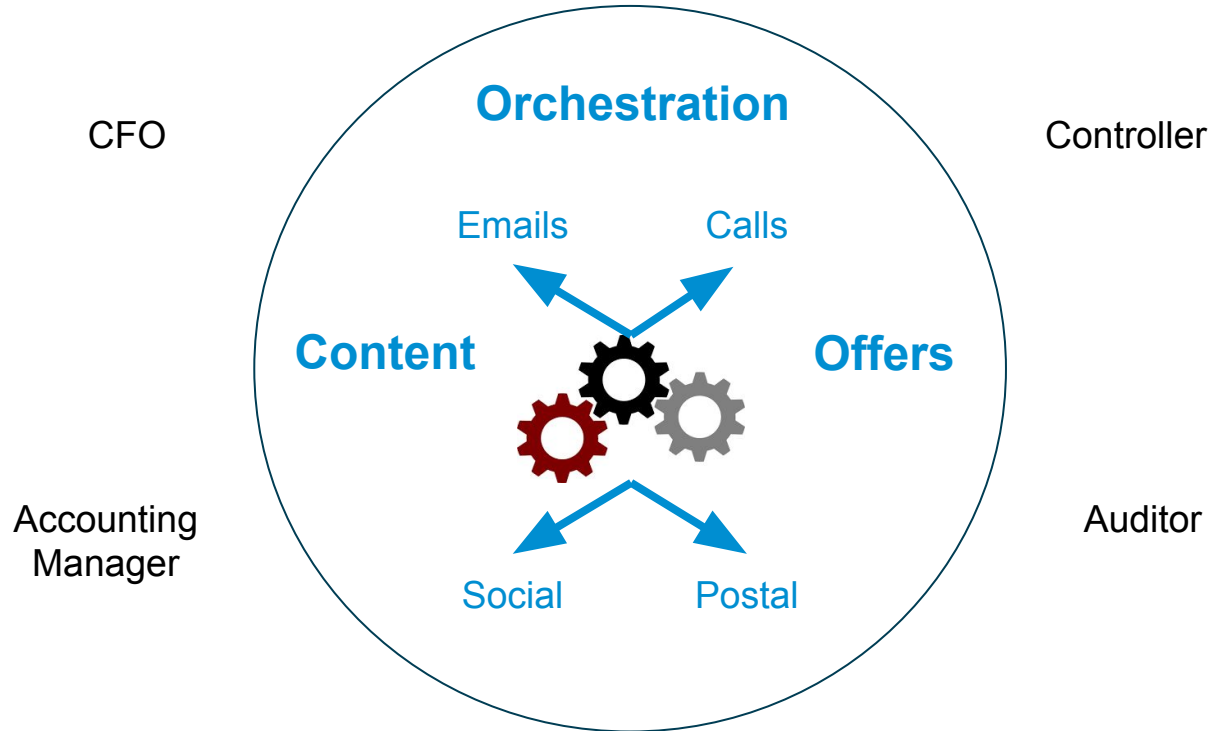

Wrong Role

Fraud / Student

# Account Based Marketing

## Orchestrating Sales/Marketing: Sales Motion

# Prepping CRM for ABM:

## *From Leads to Accounts/Contacts*

### ICP Account Criteria

Tier based on:  
Firmographics, Behavior,  
Tech Stack, etc

### CRM Account Build-Out

# DataFox

Create and update over time

### Lead Matching & Conversion

 LeanData OR Marketing Automation

Set matching rules, enrich key details, match to target personas

#### Account Criteria Examples:

Revenue or Employee Size, Industry, Tech Stack, Location, Marketing Team Size, Presence of Specific Role, Number of Customers, # Website Visitors, Growth Rate, B2B or B2C...

# *#FloQast* Case Study

## Challenge: Lead Flow Causing Sales Engagement Confusion

- Salesforce: Reps live in SFDC with Accounts/Contacts
- BDRs live in Outreach.io making weekly account based outreach
- BDRs Create Opps w/o complete SFDC view
- Contact Acquisition Required 20% BDR Time

# FloQast CRM Migration: Step by Step

## Define ICP criteria

Analysis and list building with DataFox team

## Create 65,000 target Accounts

Enriched Account fields using DataFox

## Deploy Account matching program

Required work email domain on forms

## Convert all Leads to Contacts

Unmatched Contacts 'float' w/o Account

## Real-time rep notification for matched Contacts

Future steps to build persona matching & scoring

# FloQast Results

## ➡ Better BDR and Rep Alignment

- *Weekly Account outreach based on Contacts at Accounts*
- *Demand gen Leads show up as Contacts (w/ and w/o Account)*

## ➡ Improved Marketing and Campaign Reporting

- *Simplified reporting in SFDC w/o additional tools*
- *Evaluate demand gen campaigns based on target Account impact*

## ➡ Better Outreach.io Lead Visibility

- *Inbound 'Leads' show up in Outreach.io b/c they are Contacts*

## ➡ Created Weekly Contact Acquisition & Sales Play

- *Saved reps time and improved consistency*

# Conclusion & Recommendations

## **Conversion to Accounts/Contacts was smooth**

- Great support from DataFox & early stage company

## **CRM Accounts build-out scales easily & creates focus**

- Drives simplicity and accountability in future programs

## **Building future programs will be simplified**

- Account scoring, Account alerts, Persona build-out, etc

# Questions?

Thank You
